

HYDRO
AGRITECH

Hydro Agritech is manufacturer and supplier
hydroponics growing system with
Polyhouse for Home Growers, Farmers,
Hobbvist and Commercial units.

Hydroponics can play a vital role in
changing agricultural scenario and food
production of the world.

WELCOME TO HYDRO AGRITECH

Hydro Agritech is manufacturer and supplier hydroponics growing system with Polyhouse for Home Growers, Farmers, Hobbyist and Commercial units. Hydro Agritech team has more than 3 years of professional experience in taking the technology from concept to actualization. Our decade old experience in poly house agri production and production of wide range of planting material encouraged us to harness unbelievable high potential of this hi-tech farming for better plant growth and more production.

Hydro AgriTech offers two basic types of systems for the hydroponic grower; the Bucket System for vine type crops (fruiting crops such as tomatoes and cucumbers etc) and the NFT System for smaller leaf type crops(herbs and lettuces).

Hydro Agritech provides efficient sales and quality service with full technical guidance related to project installation for the cost effective & innovative end- to- end solutions to customers & farmers. It helps to cultivate pesticide free & dirt free vegetables at home, terrace, or on the farm. We know the importance of not only supplying hydroponic systems, but also offering the superior technical support necessary to help our growers to succeed.

Growing Soil-Less with Hydroponics: An Introduction to Innovative Farming at Home

NFT 2 X 5 Hydroponic Systems Leaf Pyramid (27 Pot)

- Perfect introductory NFT system for the hobby grower or for home purposes.
- NFT Systems include 2 X 5 foot channels with a total of 27 plant spaces.
- The square table fits well under many supplemental lighting systems for indoor production.
- Square Steel Support Table with adjustable legs for leveling.
- Removable top caps for easy cleaning.
- Nutrients feed line plumbing and drain lines.

Specifications

Product Code	HNFT25
suitable for	Home use - on balcony/rooftop/garden.
Can grow	27x Leafy Greens, Herbs
Accessories Included	27 x 2in Net Pots, LECA, 18w Submersible Pump, Sturdy galvanized table frame, 20ltr Reservoir, Seedling Tray, Water analysis PH test strips Nutrients – (200ml x3) , PH UP and PH Down 200 X 1
Cubic Space Required (l X w X h) ft.	5 X 2 X 3

NFT 5 X 10 Hydroponic Systems Leaf Pyramid (160 Pot)

- Perfect introductory NFT system for the hobby grower or for home purposes.
- NFT Systems include 5 X 10 foot channels with a total of 160 plant spaces.
- The square table fits well under many supplemental lighting systems for indoor production.
- Square Steel Support Table with adjustable legs for leveling.
- Removable top caps for easy cleaning.
- Nutrients feed line plumbing and drain lines.

Specifications

Product Code	HNFT510
suitable for	Home use - on balcony/rooftop/garden.
Can grow	160x Leafy Greens, Herbs
Accessories Included	160 x 2in Net Pots, LECA, 48w Submersible Pump, Seedling Tray, Coco Peat X 1, Water analysis PH test Pen X 1, ppm Pen X 1, Sturdy galvanized table frame, 150ltr Reservoir, Nutrients – (500ml x3), PH UP and PH Down 200 X 1,
Cubic Space Required (l X w X h) ft.	12 X 7 X 8

DWC 6 Bucket Hydroponic Systems

The Hydro Agritech 6 Air Bucket Systems is great for growing vine crops and other tall growing plants. Suitable for tomatoes, cucumbers, peppers and many other fast growing fruiting and flowering plants. The 6 Air Bucket Systems is formed with a small reservoir to avoid drowning or starving your plants, and are made from high quality UV resistant plastic. This hydroponic bucket system will provide you with fresh veggies for years to come!

Specifications

Product Code	HABS06
suitable for	Home use - on balcony/rooftop/garden.
Can grow	6 x fruits/vegetables/flowers
Accessories Included	6 x 5in Net Pots, LECA, 18w Submersible Pump, Seedling Tray, Coco peat x 1, Water analysis PH test pen x 1, ppm Pen x 1, Sturdy galvanized table frame, 20ltr Reservoir, Nutrients – (200ml x3), PH UP and PH Down 200 X 1
Cubic Space Required (l X w X h) ft.	6 x 4 x 8

DWC 12 Bucket Hydroponic Systems

The Hydro Agritech 6 Air Bucket Systems is great for growing vine crops and other tall growing plants. Suitable for tomatoes, cucumbers, peppers and many other fast growing fruiting and flowering plants. The 6 Air Bucket Systems is formed with a small reservoir to avoid drowning or starving your plants, and are made from high quality UV resistant plastic. This hydroponic bucket system will provide you with fresh veggies for years to come!

Specifications

Product Code	HABS12
suitable for	Home use - on balcony/rooftop/garden.
Can grow	12 x fruits/vegetables/flowers
Accessories Included	12 x 5in Net Pots, LECA, 18w Submersible Pump, Seedling Tray, Coco peat x 1, Water analysis PH test Pen x 1, ppm Pen x 1, 100 liter Reservoir, Sturdy galvanized table frame, Nutrients – (200ml x3), PH UP and PH Down 200 X 1
Cubic Space Required (l X w X h) ft.	12 x 8 x 16
